### PART ONE : NATURE OF GEOGRAPHY

|           |  |              |
|-----------|--|--------------|
| <b>1.</b> | <b>Introduction to Geography</b>                               | <b>1–19</b>  |
| 1.        | Meaning and Definition of Geography .....                      | 1            |
| 2.        | Scope of Geography .....                                       | 3            |
| 3.        | Nature of Geography .....                                      | 4            |
|           | (1) <i>Geography is the study of earth's surface</i> .....     | 4            |
|           | (2) <i>Geography is an interdisciplinary science</i> .....     | 4            |
|           | (3) <i>Geography is the study of empirical science</i> .....   | 5            |
|           | (4) <i>Geography is the study of interrelationship</i> .....   | 6            |
|           | (5) <i>Geography is a synthesising science</i> .....           | 6            |
| 4.        | Aims of Geography .....  | 7            |
| 5.        | Branches and sub-branches of Geography .....                   | 9            |
|           | (A) <i>Branches of physical geography</i> .....                | 9            |
|           | (B) <i>Branches of Human Geography</i> .....                   | 12           |
| 6.        | Relations of Geography with other sciences .....               | 14           |
|           | (A) <i>Relations of geography with physical sciences</i> ..... | 14           |
|           | (B) <i>Relations of geography with social sciences</i> .....   | 16           |
|           | <i>References</i> .....  | 19           |
| <b>2.</b> | <b>Fundamental Concepts of Geography and Its Branches</b>      | <b>20–44</b> |
| 1.        | Fundamental Concepts of Geography .....                        | 20           |
|           | (1) <i>Concept of earth's surface</i> .....                    | 20           |
|           | (2) <i>Concept of location</i> .....                           | 20           |
|           | (3) <i>Concept of areal differentiation</i> .....              | 21           |
|           | (4) <i>Concept of landscape</i> .....                          | 22           |
|           | (5) <i>Concept of scale</i> .....                              | 23           |
|           | (6) <i>Concept of spatial interaction</i> .....                | 24           |
|           | (7) <i>Concept of region or regional concept</i> .....         | 24           |
|           | (8) <i>Concept of temporal change</i> .....                    | 25           |

|   |    |
|---|----|
| 2. Fundamental Concepts in Physical Geography.....        | 26 |
| (1) <i>Concept of uniformitarianism</i> .....             | 26 |
| (2) <i>Concept of natural landscape</i> .....             | 26 |
| (3) <i>Concept of landform</i> .....                      | 27 |
| (4) <i>Concept of geological structure</i> .....          | 27 |
| (5) <i>Concept of geomorphic process</i> .....            | 28 |
| (6) <i>Concept of geomorphic stage</i> .....              | 28 |
| (7) <i>Concept of cycle of erosion</i> .....              | 29 |
| (8) <i>Concept of ecosystem</i> .....                     | 29 |
| (9) <i>Concept of biome</i> .....                         | 30 |
| 3. Concepts of Human Geography .....                      | 30 |
| (1) <i>Concept of inter-relationship</i> .....            | 31 |
| (2) <i>Concept of temporal change</i> .....               | 31 |
| (3) <i>Concept of human adaptation</i> .....              | 32 |
| (4) <i>Concept of determinism</i> .....                   | 33 |
| (5) <i>Concept of possibilism</i> .....                   | 34 |
| (6) <i>Concept of neo-determinism</i> .....               | 35 |
| (7) <i>Concept of probabilism</i> .....                   | 35 |
| (8) <i>Concept of cultural landscape</i> .....            | 35 |
| 4. Fundamental Concepts of Economic Geography.....        | 36 |
| (1) <i>Concept of economic activity</i> .....             | 36 |
| (2) <i>Concept of economic landscape</i> .....            | 37 |
| (3) <i>Concept of location of economic activity</i> ..... | 37 |
| (4) <i>Concept of resource</i> .....                      | 37 |
| (5) <i>Concept of resource management</i> .....           | 38 |
| (6) <i>Concept of economic development</i> .....          | 38 |
| (7) <i>Concept of sustainable development</i> .....       | 39 |
| 5. Fundamental Concepts is Settlement Geography.....      | 39 |
| (1) <i>Concept of settlement</i> .....                    | 39 |
| (2) <i>Concept of town and urban areas</i> .....          | 40 |
| (3) <i>Concept of rural-urban continuum</i> .....         | 40 |
| (4) <i>Concept of central place</i> .....                 | 41 |
| (5) <i>Concept of urban economic base</i> .....           | 41 |
| (6) <i>Concept of rural-urban fringe</i> .....            | 42 |
| (7) <i>Concept of umland or city region</i> .....         | 42 |
| (8) <i>Concept of urbanization</i> .....                  | 43 |
| <b>References</b> .....                                   | 43 |

|                                     |              |
|-------------------------------------|--------------|
| <b>3. Approaches of Geography</b>   | <b>45–58</b> |
| 1. Systematic Approach .....        | 45           |
| 2. Regional Approach .....          | 46           |
| 3. Historical Approach .....        | 47           |
| 4. Environmentalistic Approach..... | 48           |
| 5. Possibilistic Approach.....      | 49           |
| 6. Ecological Approach.....         | 50           |
| 7. Spatial/Locational Approach..... | 51           |
| 8. Behavioural Approach .....       | 52           |
| 9. Humanistic Approach .....        | 54           |
| 10. Welfare Approach.....           | 55           |
| <b>References .....</b>             | <b>56</b>    |

## **PART TWO : HISTORY OF GEOGRAPHY**

|           |   |              |
|-----------|---|--------------|
| <b>4.</b> | <b>Geographical Knowledge in Ancient India</b>                  | <b>59–81</b> |
| 1.        | Evolution of Geographical Knowledge.....                        | 59           |
| (1)       | <i>Age of Indus Valley Civilization</i> .....                   | 60           |
| (2)       | <i>Vedic age</i> .....  | 61           |
| (3)       | <i>Age of Epics and Puranas</i> .....                           | 63           |
| (4)       | <i>Post Epic age</i> .....                                      | 64           |
| 2.        | Geographers of Ancient India .....                              | 65           |
| 3.        | Main Aspects of Geographical Knowledge in Ancient India .....   | 67           |
| (A)       | <i>Astronomical knowledge</i> .....                             | 67           |
| (B)       | <i>Descriptions of physical geography</i> .....                 | 70           |
| (C)       | <i>Descriptions of human geography</i> .....                    | 76           |
|           | <b>References</b> .....   | 81           |
| <b>5.</b> | <b>Geographical Knowledge in Ancient China</b>                  | <b>82–86</b> |
| 1.        | Historical Background .....                                     | 82           |
| 2.        | Extent of Ancient Chinese World .....                           | 83           |
| 3.        | Foreign Trade and Trade Routes.....                             | 84           |
| 4.        | Development of Religions in China.....                          | 84           |
| 5.        | Economic and Cultural Achievements.....                         | 85           |
| 6.        | Application of Scientific Methods in Geographical Studies ..... | 85           |
| 7.        | Application of Cartographic Techniques .....                    | 85           |
|           | <b>References</b> .....   | 86           |

|   |   |                |
|---|---|----------------|
| <b>6.</b>   | <b>Ancient Greek and Roman Geography</b>                        | <b>87–105</b>  |
| (A) Greek Contribution to Geography ..... 87  |   |                |
| (1) <i>Greek Geographers : 1. Homer, 2. Thales, 3. Anaximander, 4. Hecataeus, 5. Herodotus, 6. Plato, 7. Aristotle, 8. Eratosthenes, 9. Hipparchus, 10. Pausanias</i> ..... |   | 88             |
| (2) <i>Contribution of Greeks to Mathematical and Physical Geography</i> ..... 95   |   |                |
| (B) Roman Contribution to Geography ..... 97  |   |                |
| 1. Roman Geographers (1. Strabo, 2. Pliny, 3. Ptolemy) .....  |   | 98             |
| 2. Major Aspects of Geographical Study in Roman Period. ....  |   | 103            |
| <b>References</b> ..... 105   |   |                |
| <b>7.</b>   | <b>Dark Age in Europe and Contributions of Arab Geographers</b> | <b>106–119</b> |
| (A) Dark Age in Europe ..... 106  |   |                |
| 1. Geographers of Dark Age (1. Solinus, 2. Firmianus, 3. Pomponius Mela, 4. Cosmos) .....   |   | 107            |
| 2. Map-making in Dark Age.....  |   | 108            |
| (B) Contributions of Arab Geographers ..... 109   |   |                |
| 1. Arab Geographers (1. Mohammad Abdul Qasim, 2. Al-Masudi, 3. Al-Biruni, 4. Al-Idrisi, 5. Ibn-Batuta, 6. Ibn-Khalidun, 7. Other significant Arab geographers).....         |   | 110            |
| 2. Main Contributors of Arab Geographers.....   |   | 117            |
| (1) <i>Astronomical and Mathematical geography</i> .....  |   | 117            |
| (2) <i>Physical geography</i> .....   |   | 118            |
| (3) <i>Human geography</i> .....  |   | 118            |
| (4) <i>Regional geography</i> .....   |   | 118            |
| (5) <i>Cartography</i> .....  |   | 119            |
| <b>References</b> ..... 119   |   |                |
| <b>8.</b>   | <b>Renaissance Period : Age of Explorations and Discoveries</b> | <b>120–137</b> |
| 1. About the Renaissance Period..... 120  |   |                |
| 2. Main Explorers of Renaissance Period .....   |   |                |
| (1. Marco Polo, 2. Christopher Columbus, 3. Vasco da Gama, 4. Ferdinand Magellan, 5. Other explorers)   |   |                |
| 3. Inventions of Renaissance Period ..... 132   |   |                |

|            |  |                |
|------------|--|----------------|
| 4.         | Geographers of Renaissance Period.....   | 133            |
|            | (1. <i>Peter Apian</i> , 2. <i>Sebastian Munster</i> , 3. <i>Gerhard Mercator</i> , 4. <i>Philip Cluverius</i> , 5. <i>Nathaniel Carpenter</i> , 6. <i>Bernhard Varenius</i> ) |                |
| 5.         | Geographical Achievements in Renaissance Period .....  | 136            |
|            | (1) <i>Discoveries of new areas and routes</i> .....   | 136            |
|            | (2) <i>Development of cartographies and map-making</i> .....   | 136            |
|            | (3) <i>Publication of general geography and world geography</i> .....  | 136            |
|            | <b>References</b> .....  | 137            |
| <b>9.</b>  | <b>Geography in the Eighteenth Century</b>   | <b>138–144</b> |
| 1.         | Prominent Geographers of Eighteenth Century .....  | 138            |
|            | (1) <i>Philip Buache</i> .....   | 138            |
|            | (2) <i>Comte de Buffon</i> .....   | 139            |
|            | (3) <i>Anton Friedrich Busching</i> .....  | 139            |
|            | (4) <i>Christoph Gatterer</i> .....  | 140            |
|            | (5) <i>Reinhold Forster</i> .....  | 140            |
|            | (6) <i>George Forster</i> .....  | 140            |
|            | (7) <i>Immanuel Kant</i> .....   | 141            |
| 2.         | Geographical Achievements of Eighteenth Century .....  | 143            |
|            | (1) <i>Rise of politico-statistical school of geography</i> .....  | 143            |
|            | (2) <i>Reine geography (pure geography)</i> .....  | 143            |
|            | (3) <i>Practical and scientific method</i> .....   | 143            |
|            | (4) <i>Universal geography</i> .....   | 144            |
|            | (5) <i>Philosophical foundation of scientific geography</i> .....  | 144            |
|            | <b>References</b> .....  | 144            |
| <b>10.</b> | <b>Founders of Modern Geography : Humboldt and Ritter</b>  | <b>145–157</b> |
| (A)        | <b>Alexander von Humboldt</b> .....  | 145            |
|            | 1. Life History of Humboldt.....   | 145            |
|            | 2. Adventures and Explorations.....  | 147            |
|            | 3. Writings of Humboldt.....   | 148            |
|            | 4. Methodology of Humboldt .....   | 149            |
|            | 5. Geographical Concepts of Humboldt .....   | 150            |
|            | 6. Terms Coined by Humboldt .....  | 151            |
| (B)        | <b>Carl Ritter</b> .....   | 152            |
|            | 1. Life History of Ritter.....   | 152            |
|            | 2. The Works of Ritter .....   | 153            |

|  |                |
|--|----------------|
| 3. Methodology of Ritter.....                                    | 154            |
| 4. Ritter's Thought.....   | 154            |
| 5. Comparison of Humboldt and Ritter.....                        | 156            |
| <b>References .....</b>  | <b>157</b>     |
| <b>11. Post Classical German Geography</b>                       | <b>158–178</b> |
| 1. German Geographers of Post-classical Period .....             | 159            |
| (1) <i>Oscar Peschel</i> .....                                   | 159            |
| (2) <i>Friedrich Ratzel</i> .....                                | 160            |
| (3) <i>Ferdinand von Richthofen</i> .....                        | 164            |
| (4) <i>Alfred Hettner</i> .....                                  | 166            |
| (5) <i>Albrecht Penk</i> .....                                   | 168            |
| (6) <i>Otto Schlüter</i> .....                                   | 169            |

## List of Figures

|              |   |     |
|--------------|---|-----|
| <b>1.1.</b>  | Three Dimensions of Knowledge .....   | 1   |
| <b>1.2.</b>  | Inter-disciplinary Character of Geography.....  | 5   |
| <b>1.3.</b>  | Development of Branches and Sub-branches of Geography .....                               | 11  |
| <b>1.4.</b>  | Relation of Geography with other Sciences.....  | 15  |
| <b>4.1.</b>  | Extent of Indus Valley Civilization .....   | 61  |
| <b>4.2.</b>  | Diagrammatic Illustration of the World of Mahabharata.....                                | 70  |
| <b>4.3.</b>  | Puranic Seven Dwipas (after S.M. Ali) .....   | 71  |
| <b>4.4.</b>  | Diagram showing Jambu Dwipa of the Puranas (after S.M. Ali) .....                         | 72  |
| <b>4.5.</b>  | Puranic Great Janapadas or Communities .....  | 78  |
| <b>6.1.</b>  | World Map of Anaximander.....   | 89  |
| <b>6.2.</b>  | Known World according to Herodotus.....   | 90  |
| <b>6.3.</b>  | Measurement of Circumference of the Earth by Eratosthenes.....                            | 92  |
| <b>6.4.</b>  | World Map of Eratosthenes .....   | 93  |
| <b>6.5.</b>  | Map of the World according to Strabo .....  | 99  |
| <b>6.6.</b>  | World Map of Ptolemy .....  | 101 |
| <b>7.1.</b>  | T in O Map of Dark Age.....   | 108 |
| <b>7.2.</b>  | World Map constructed by St. Beatus .....   | 109 |
| <b>7.3.</b>  | Al-Idris's World Map.....   | 114 |
| <b>8.1.</b>  | World's Great Explorations and Ocean Routes.....  | 123 |
| <b>8.2.</b>  | Journey Route of Marco Polo .....   | 124 |
| <b>8.3.</b>  | Journey Routes of Columbus.....   | 126 |
| <b>8.4.</b>  | Journey Route of Vasco da Gama.....   | 128 |
| <b>8.5.</b>  | The Voyages of Captain Cook.....  | 131 |
| <b>13.1.</b> | Mackinder's Heartland Theory.....   | 199 |
| <b>14.1.</b> | Elements of Human Geography (after Huntington).....                                       | 220 |
| <b>14.2.</b> | Taylor's Migration Zone Theory (after G. Taylor) .....                                    | 224 |
| <b>14.3.</b> | Diagrammatic Representation of Zone and Strata Theory.....                                | 225 |
| <b>16.1.</b> | Development of Various Branches of Geography in India. (after P.P. Karan).....            | 264 |
| <b>17.1.</b> | Phenomenal and Behavioural Environment (after Kirk) .....                                 | 290 |
| <b>18.1.</b> | Inter-relationship between Systematic and Regional Geography .....                        | 298 |
| <b>20.1.</b> | Cultural Realms of the Modern World (after Spencer and Thomas) .....                      | 327 |
| <b>21.1.</b> | Presentation of Kuhn's Theory of the Development of Sciences (after Henriksen, 1973)..... | 336 |
| <b>22.1.</b> | Types of Models and their Building Process .....  | 354 |
| <b>23.1.</b> | System and Sub-system (after Blablock and Blablock).....                                  | 366 |

|               |  |     |
|---------------|--|-----|
| <b>23.2.</b>  | Types of Links and Relationships between Elements.....                                     | 367 |
| <b>23.3.</b>  | Closed and Open Systems .....  | 368 |
| <b>23.4.</b>  | Types of Systems.....  | 369 |
| <b>23.5.</b>  | Various Types of Feedback Relations in Systems (after Chorley and Kennedy, 1971).....      | 370 |
| <b>28.1.</b>  | Chart Illustrating Malthusian Theory of Population .....                                   | 414 |
| <b>28.2.</b>  | Demographic Transition Theory .....  | 418 |
| <b>28.3.</b>  | Von Thunen's Agricultural Location Theory .....  | 422 |
| <b>28.4.</b>  | Delimitation of Agricultural Belts .....   | 425 |
| <b>28.5.</b>  | Jonasson's Agricultural Location Model .....   | 427 |
| <b>28.6.</b>  | Locational Triangle .....  | 431 |
| <b>28.7.</b>  | Impact of Labour on the Location of Industry .....   | 432 |
| <b>28.8.</b>  | Impact of Agglomeration on the Location of Industry .....                                  | 433 |
| <b>28.9.</b>  | Locational Triangle (after Losch) .....  | 435 |
| <b>28.10.</b> | Isodopane Method of Least Cost Location .....  | 436 |
| <b>28.11.</b> | Spatial Demand Cone according to Losch .....   | 437 |
| <b>28.12.</b> | Theoretical Shape of Complementary Area .....  | 440 |
| <b>28.13.</b> | Christaller's Central Place System .....   | 442 |
| <b>28.14.</b> | Comparison of Christaller's Market, Transport and Administrative Principles .....          | 445 |
| <b>28.15.</b> | Hexagonal Layout under Christaller's Market, Transport and Administrative Principles ..... | 446 |
| <b>28.16.</b> | Central Place System of Losch .....  | 448 |
| <b>28.17.</b> | The Loschian Landscape .....   | 449 |
| <b>28.18.</b> | Theoretical Rank-Size Relationship .....   | 452 |
| <b>28.19.</b> | Rank-Size Relationship of Indian Cities .....  | 457 |
| <b>28.20.</b> | Concentric Zone Model (after E.W. Burgess) .....   | 459 |
| <b>28.21.</b> | The Sector Theory (after Homer Hoyt) .....   | 460 |
| <b>28.22.</b> | The Multiple Nuclei Theory (after Harris & Ullman) .....                                   | 460 |
| <b>28.23.</b> | Growth of Key and Linked Industries of Growth Pole (after Jean-Paul Rodrigue) .....        | 463 |
| <b>28.24.</b> | Migration of People from Periphery to Core .....   | 466 |
| <b>28.25.</b> | Core-Periphery Stages of Development (after John Friedmann) .....                          | 467 |
| <b>28.26.</b> | The Process of Development of an Industrial Region (after Gunnar Myrdal) .....             | 470 |
| <b>28.27.</b> | Mackinder's Geopolitical Organization of the World .....                                   | 473 |
| <b>28.28.</b> | Extent of Mackinder's Heartland (1919) .....   | 474 |
| <b>28.29.</b> | Spykman's Rimland .....  | 478 |
